

## THE RISK IS REAL

All it takes is a few inches of water to cause tens of thousands of dollars in damage to your home and its contents. Without flood insurance, you'd have to pay for ruined walls, furniture, floors, rugs, baseboards, electronics, and more. Buying affordable flood insurance lessens your financial burden and makes it faster and easier to repair the damage and make your house a home again.

**DON'T WAIT—  
CALL YOUR INSURANCE AGENT TODAY.**

About 85 insurance companies offer Preferred Risk Policies from the National Flood Insurance Program, and whichever company you use, it's sold at the same price.

## PREFERRED RISK POLICY

Low-cost flood insurance for homeowners and renters.

**A small investment protects  
you from a big problem.**

# PROTECT WHAT MATTERS

Most homeowners insurance doesn't cover flood damage. Federal disaster assistance is not always available for flooding—and if it is, it's usually a loan that must be repaid. Isn't buying a PRP a small price to pay for protection from what could be a big, expensive, time-consuming problem?

Every year, thousands of people learn the hard way that you don't need to live near a river or coastline to face a flood. Floods are the No. 1 natural disaster in the United States, yet only a fraction of homes are financially protected with flood insurance against the cost of flooding.

### WHY RISK YOUR HOME WHEN:

- Most homes outside of high-risk areas qualify for the National Flood Insurance Program's Preferred Risk Policy (PRP).
- PRPs offer the same quality coverage as a Standard Flood Insurance Policy, providing you with both building and contents options.
- PRPs are available in most communities across the country—wherever flood insurance is sold and available to homeowners, condominium unit owners, and renters.

People outside of mapped high-risk flood areas file nearly 25 percent of all National Flood Insurance Program flood insurance claims and receive one-third of Federal disaster assistance for flooding. The risk is real, wherever you live.
