Dear Property Owner:

Enclosed find material pertaining to a proposed beach nourishment project for the town of Kitty Hawk, North Carolina. A tremendous amount of effort has gone into the engineering, finance sourcing and council discussion regarding the viability of such a project for the entire length of our beach front. What you have before you is the best available project within the limited funds that can be accumulated at this time. It does not completely protect the beach front or areas between highway 12 and 158 from a large storm surge or exceptional Neap Tide that might occur concurrent to a hard northeaster.

The proposed tax rates for each Municipal Service District are the minimum necessary to support the initial construction and provide for future maintenance. Provision for future maintenance is integral to the project in order to be eligible for FEMA funding of restoration to storm damage on a nourished beach. It does not mean FEMA will fund Normal maintenance of Advance Sand (also called sacrificial sand).

Finally, I want to assure you that this is not a done deal without your consent. Council needs your positive or negative input in order to determine the public majority desire for this expensive project. Silent consent or denial is unacceptable. Please mail, email, call town hall or show up at the hearing. EVERY piece of mail will be read and tabulated. Every phone call will be counted. This is YOUR money. Help us determine if this is how you want it spent.

Thank you in advance for your time and advice.

Sincerely,

A handwritten signature in black ink that reads 'Gary L. Perry'.

Gary L. Perry
Mayor
